Couple: _____ Date: _____

Planning for a wedding is never easy for either half of the future couple. Trying to remember all the many details in the months leading up to a wedding is hard. Trying to remember everything on the day of the wedding is much harder. This photo checklist of possible photographs to be taken is a *starting point* for the images to be taken during a wedding. All the items shown on the lists are what I try and capture during the event.

Use: Check the box for the images that you definitely would like to have; line through the ones you do not want. leave unchanged the ones that you would like me to take but if there is not enough time to take them then not having them is okay.

Bride and Groom allowed to see each other before the ceremony? Y/N? ____

TO THE BRIDE AND GROOM

Please “write-in” any photographs that you want taken that are not already indicated on this form. This might include photographs with out of town relatives, friends, etc. or special shots you might have found in magazines or from viewing other wedding photos.

I am more than willing to meet your special needs within reason and within the confines of the package/contract agreement. Don't be afraid to ask about anything relating to your wedding photography!
